Primary care participation at “48th Nordic Lung Congress”.

Primary care participation at the Nordic Lung congresses have, over the years, been sporadic and without great visibility. This year, however, has seen great collaboration between the scientific committee and the Nordic primary care community. Seen from a primary care perspective, this is a great opportunity to develop closer links with the secondary care community – which we believe will give our patients benefits.

In addition to the official programme, there is an additional programme planned for Friday 12th May –lead by primary care. We believe the primary care programme also will be of interest for all delegates!

From the main programme:

We would like to highlight the following sessions, which have primary care involvement:

Wednesday 10th May:

10.00 17.00 Postgraduate Course (in Scandinavian) COPD

Thursday 11th May:

- 10.30 – 12-00 How to optimise the care of pulmonary patients through interprofessionell cooperations
Respiratory epidemiology in the Nordic countries
- 13.00 – 14.30 Rehabilitation in COPD and other pulmonary diseases
Debate: How should COPD be defined?
- 15.00 – 16.30 Monitoring asthma and COPD - what tools to use in primary and secondary care
Tuberculosis, current situation and update

Friday 12th May:

- 09.00 – 10.30 COPD in non-smokers.
“Biomass fuel and COPD” - Onno van Schayck (NL)
- 11.00 – 12.30 Guidelines for asthma and COPD in the Nordic countries
Poster session
- 13.30 – 15.00 New aspects in asthma and COPD

Primary care session (open for everyone!)

- 15.15 – 16.00 “Global aspects of biomass fuel, can we make a difference?” Onno van Schayck (NL)
- 16.00 - 18.00 Nordic primary care research - what can we learn from each other? What can we do together?
 - Discussion and exchange of project ideas.
- 20.00 Dinner.
